

Estimated FAF Flow for Trucks Passing Through Washington on National Highway System 2050

Note: Major flows include domestic and international freight moving by truck on highway segments with more than twenty-five FAF trucks per day and between places typically more than fifty miles apart.
 Source: U.S. Department of Transportation, Federal Highway Administration, Office of Freight Management and Operations, Freight Analysis Framework (FAF), version 5.1. Flows include 42 different commodities represented in FAF.
 *State to State flows represent annual KTons of freight transported by trucks that pass through Washington including imports and exports that use Washington as the gateway port.
