

Traffic Incident Management

Americans burn more than **2.8 billion gallons** of fuel every year stuck in incident-related traffic.

Commuters lose nearly a **full workweek (36 hours)** sitting in traffic congestion each year. Every minute a traffic lane is blocked creates 4 extra minutes of delay.

Traffic incidents create unsafe situations, put lives at risk, and cause delays.

You can help:

- 1** Move your car to a safe place – out of the travel lanes – if you are involved in an incident, and there are no injuries.
- 2** When you see flashing lights ahead of you, you need to **slow down and/or move over**. You can be ticketed for failing to do this!
- 3** Help keep your loved ones safe and avoid a ticket. Tell your friends and family about these laws.

Traffic Incident Management

safe
reliable
travel smooth
fast response
timely
cost-saving
efficient
