Estimated Annual FAF Tonnage Flow for Trucks Carrying Farm Products Commodities on National Highway System 2017

Note: Major flows include domestic and international freight moving by truck on highway segments with more than 25,000 FAF tons per year and between places typically more than fifty miles apart.

Flows include Live animals/fish (SCTG01), Cereal grains (SCTG02), Other ag products (SCTG03), Animal feed (SCTG04), and Meat/seafood (SCTG05) commodities represented in FAF.
